Salesforce CI CD Pipeline, Personal Project 📁

Implemented a scalable CI CD pipeline using github actions. Repository is currently being actively maintained and new features are being added frequently.

Features :

- Code Formatting on the Go.
- Unit Tests.
- Delta Deployment [Package Calculation].
- Custom Github Actions implementation.

Professional Experience

Engineering Lead, Persistent Systems 📁

Sep 2021 – present | Pune

Associate Technical Consultant, Perficient 📁

Nov 2018 – Sep 2021 | Nagpur

Skills

Apex Programming (Trigger, Batch, Future, Queueable, Scheduler, Unit Testing, Visualforce Page),

Lightning Web Component-LWC (HTML, CSS, JS),

Salesforce Automation Tools (Process Builder, Flow, Workflow, Approval Processes),

JavaScript, Problem Solving, JIRA,

GIT (Github, Bitbucket, Github Actions),

Deployment Tools (SFDX CLI, Change Set, Quick Deploy, Workbench, Data Loader),

SOQL, SOSL,

API Integrations (REST, SOAP, Connected Apps, Named Credentials, Workflow Outbound messages, External Services, Platform Events, Composite API, Inbound and Outbound Integrations),

Custom Configuration (Custom Metadata, Custom Setting, Custom Label, Configuration Driven Development),

CRM Clouds (Salesforce),

Salesforce Clouds (Sales Cloud, Financial Services Cloud, Health Cloud),

CI/CD Tools (Jenkins, Github Actions, COPADO)

Education

SSC, Pandit Bachcharaj Vyas Vidyalaya

Mar 2012 | 89.90%

HSC, Major Hemant Jakate Vidyaniketan

Mar 2014 | 75.05%

B.E, Rajiv Gandhi College Of Engineering

2014 – 2018 | 6.09

Certificates

Platform Developer 1 • App Builder

MuleSoft Certified Developer 1

Vlocity Health Quoting Developer

Vlocity Platform Developer
